Edmonton, AB T6G 2C7 | +1 (825) 888-0227 | gurkeeratkakar@gmail.com

Work Experience

Dashboard Development Intern AI Centre for Decision Analytics - Reverse-engineered GRAS scoring methodology to benchmark Alberta School of Business against peer institutions. - Built data pipelines to extract, clean, and standardize publication, and researcher datasets across subjects and years. - Created data visuals and documented workflows to explain the analysis process and validate findings for leadership. - Collaborated with ASB deans and senior faculty, leading presentations to deliver findings clearly and effectively.	04/2026 to 07/2026 Edmonton, Alberta
Research Assistant University of Alberta - Conducted analysis on large household survey datasets using RStudio to uncover socioeconomic patterns. - Performed data modeling and spreadsheet analysis, documenting for process and findings. - Developed interactive Tableau dashboards, communicating insights with visuals clearly to senior researchers. - Assisted the professor with Canvas LMS setup for students, and supported exam invigilation, proctoring, and evaluation.	09/2025 to 04/2026 Edmonton, Alberta
Data/Business Analyst Intern Skill-Up Technologies - Automated BI reporting workflows with MySQL and Power BI, reducing manual data preparation. - Worked with management to define KPIs, resolve data quality issues, and improve metric reliability. - Analyzed engagement trends and user segments, supporting higher interaction, enrollment, and completion rates.	02/2025 to 07/2025 Bellevue, Washington

Education

Bachelor of Science: Computing Science Specialization University of Alberta 3.3 + GPA	Expected in 04/2027 Edmonton, AB
High School Diploma Delhi Public School Noida	07/2022 Uttar Pradesh, India

Collaborated Projects

Credit Card Fraud Detection & Responsible AI Analysis <i>Python, Pandas, Fairness & Privacy Analysis</i> - Built a fraud detection pipeline on transaction data, applying data preprocessing to preserve PII. - Evaluated across gender, age, and geography; conducting EDA to identify bias and imbalances in fraud predictions.
JTI Business Analytics Dashboard <i>Tableau & Excel</i> - Data Quality checks, and modelling multitable datasets using Pandas and NumPy, for analysis and visualization in Tableau. - Created interactive dashboards highlighting revenue trends, repair frequency, customer distribution, and employee performance.
LuckySpot - Lottery Based Event Management App <i>Java, Firebase, Android Studio, GitHub CI</i> - Co-developed an Android event app, implementing features across multiple user stories to design, test, and refine functionality. - Collaborated using Agile sprints, GitHub version control, and documented deliverables (test cases, CRC cards, and storyboards).

Skills

Programming: Python, C, RStudio, SQL	Data Visualization: Power BI, Tableau, Excel
Statistical Analysis: Exploratory Data Analysis (EDA), hypothesis testing	Data Management: Relational database design, SQL querying
Data Processing: Data cleaning, transformation, and feature engineering	Professional Strengths: Analytical thinking, clear communication, collaborative problem solver

Certifications

Hackerrank Python Skill Certification
GLA Data Visualization with Power BI & Tableau
DUCAT Core Python certification
TOEFL language certification - scored 104/120

Leadership & Volunteering Roles

Vice President Internal International Student Association - University of Alberta May 2024 - May 2025 - Revived the I-Card program to support affordability, restructured internal teams to improve collaboration, and proposed mental wellness workshops for international students. - University of Alberta Students' Union Award recipient for Global Connection.
Public Relations Associate Network of Applied Technology (NAT) Jan 2025 - Oct 2025 - Supported public relations efforts by engaging with policymakers and media partners, while strengthening outreach and stakeholder engagement. - Assisted with drafting communications, preparing briefing materials, and coordinating outreach initiatives.
